SUMMARY

Dynamic Python Developer with proven success at Elevate Labs, where I earned the Best Performer Certification. Skilled in backend development using FastAPI and adept at collaborative problem-solving. Experienced in creating modular components that enhance workflows, leveraging strong data structure knowledge and version control expertise to deliver impactful solutions.

EXPERIENCE

Internship

09/2025 – 11/2025

Elevate Labs

- Completed 45-day Python Developer Internship, contributing to real-world projects and earning Best Performer Certification for outstanding performance.
- Completed day-to-day duties accurately and efficiently.
- Contributed innovative ideas and solutions to enhance team performance and outcomes.

Python Intern

07/2025 – 09/2025

Upstricks

- Developed reusable and modular Python components to streamline development workflows.
- Enhanced logical thinking and debugging skills through collaborative development projects.

EDUCATION

B.Tech: CSE (Data Science)

02/2026

NRI Institute of Technology

Intermediate: MPC

01/2024

Narayana Junior College

SSC

01/2022

Gowtham High School

SKILL

Backend Development

Python, FastAPI

API development

Databases

MongoDB & MySQL

Web development

Database management

Version control

Python & Data Structures

CERTIFICATIONS

- Salesforce Certified Agentforce Specialist
- Python Programming Certification
- OpenAI Buildathon Participant
- IIIT Hackathon Participant

PROJECT

E-Mitra – Smart Agricultural Support Platform

- Developed a farmer-centric web application for fertilizer availability tracking and online booking, improving access to agricultural resources through a simple digital platform.
- Tools & Technologies: Python, Flask, HTML, CSS, JavaScript, SQLite/MySQL, Git, GitHub.

AI Assistant - Julie

Streamlit UI, Python, FastAPI, TTS System

Designed an AI voice assistant for intelligent and interactive digital communication.

Task Management Application

Node.js, Express, JavaScript, Tailwind CSS

Developed a real-time collaborative task management tool with team features.

Dynamic Pricing Optimizer

Python, Machine Learning Algorithms

Design and implement a dynamic pricing optimization system for an online retailer using machine learning.

ACHIEVEMENTS AND ADDITIONAL INFORMATION

Award-Winning Project

LinkedIn Web Scraping

Workshops and Hackathons

Participated in workshops, Attended OpenAI Buildathon and IIIT Hackathon

Languages & Tools

English, Telugu, Git/GitHub, VS Code

Personal Development

Currently developing an AI Agent, To become successful and help others.

HANDS ON REAL TIME

Gained experience in designing and developing scalable applications.
